BYU's Post-Game Notes

DOUBLE-DIGITS - BYU finished with a 10-3 record this season, its fifth 10-win season in the last six years, a feat duplicated only one other time in program history from 1980-85.

BOWL WIN STREAK - BYU won its third bowl game in a row for the first time in program history, doing so in three consecutive years and in three different bowl games.

BOWL RECORDS - Cody Hoffman's three receiving touchdowns set an Armed Forces Bowl record and tied a BYU bowl record originally set by Clay Brown in the 1980 Holiday bowl against SMU and then tied last year by Hoffman in the New Mexico Bowl. Hoffman's six TDs is also a BYU career bowl record.

CATCHING CODY - Sophomore Cody Hoffman tallied three touchdowns, eight receptions and 122 yards, his fifth 100-yard game of the season and sixth of his career. Hoffman's first-ever game with 100+ receiving yards came in last year's New Mexico Bowl when he finished with 137 yards on eight receptions with three touchdowns.

KICKOFF CODY - On his second of three kick returns on the day, Cody Hoffman broke the BYU record for most kickoff return yards in a season. Hoffman finished the day with 41 kick return yards, giving him 879 yards on the season. Mike Rigell (1998, 00-01) previously held the record with 838 yards in a season. Hoffman also set a new BYU record for most kick returns in a season on his return to open the second half. The sophomore finishes the year with 36 returns, one more than O'Neill Chambers 35 returns in 2008.

ALL-PURPOSE CODY - Hoffman totaled 163 all-purpose yards for the game, moving him from 8th to 6th on the BYU single season all-purpose yards list with 1,825 yards.

KICKING TO HISTORY - Sophomore kicker Justin Sorensen went 48 of 48 on PAT attempts this season, the most PATs made in a season without a miss in BYU history.

MAGIC NUMBER - Riley Nelson found Cody Hoffman for the game-winning touchdown with 11 seconds left in the game, the second time the Cougars have scored a game-winner with 11 ticks left on the clock after Nelson's pass to Marcus Mathews defeated Utah State earlier this year.

NO GO - BYU has held its opponents to 14 points or fewer in the first half in 12 of 13 games this season. Tulsa had 14 points in the first half.

STUFF THE RUN - The Cougar defense held Tulsa to just 37 yards rushing for the game, 168 yards below its season average. It's the eighth time in 13 games a BYU opponent has been held below 100 yards rushing.

TWEETABLE EFFORT - Playing in his final game as a Cougar, senior OL Matt Reynolds, averaging 12 pancake blocks a game, laid down a block that helped lead to a BYU touchdown in the first half after losing his helmet earlier in the play. Following the play, "Matt Reynolds" began trending nationally on Twitter.

RUNNING OUT THE FLAG - BYU was led out of the tunnel today by junior Joe Sampson carrying the team flag and sophomore Spencer Hadley with the special teams flag. The special teams flag, highlighted by an old school BYU logo adopted by the special teams, is a new addition this season. Former Cougar and current Pittsburgh Steeler defensive lineman Chris Hoke (1997-00) carried out the alumni flag. Hoke, a 10-year NFL veteran with two Super Bowl rings, was an All-MWC and Academic All-MWC performer at BYU.

Tulsa Post-Game Notes

- This is Tulsa's 18th bowl game appearance, and seventh in the last nine years. Tulsa has an 8-10 bowl record.
- Bill Blankenship is the fourth head coach in Tulsa history to lead the Hurricane to a bowl game in their first season - Henry Frnka in 1941, Steve Kragthorpe in 2003 and Todd Graham in 2007. Frnka and Graham won their games.
- 18 of the 21 seniors played in today's bowl game.
- Tulsa scored on its first possession of the game for the eighth time this season, including seven TDs and one field goal.
- Senior quarterback G.J. Kinne started his 38th-straight game. Kinne has started every game in his three seasons at Tulsa.
- Senior offensive tackle Tyler Holmes started his 46th career game, starting every game that he has played in in his career (missing six games in 2009 with an injury).
- Junior wide receiver Ricky Johnson scored his fourth touchdown of the season and seventh of his career at the 9:51 mark of the first quarter. He caught an eight-yard pass from G.J. Kinne on an 11-play, 76-yard scoring drive.
- Dexter McCoil had two interceptions (4:42 in the 2nd quarter and 7:34 in the 3rd quarter) for his fifth and sixth of the season and 12th and 13th of his career. His 13 career interceptions ties the school record set by Jeff Jordan (1962-64) and Nate Harris (1980-84).
- Bryan Burnham's touchdown reception was his ninth touchdown of the season, tying the most TD's for a Tulsa player this season. This was also his third 100-yard receiving game of the season and of his career.
- Bryan Burnham's ninth touchdown reception was the most for a Tulsa player in a season since Damaris Johnson had 10 in 2008.
- This was the second-straight bowl game in which a Tulsa player had two interceptions. Curnelius Arnick had two interceptions in the 2010 Sheraton Hawai'i Bowl.
- Senior kicker Kevin Fitzpatrick moved into first place on Tulsa's all-time scoring chart in the last regular-season game of the 2011 season (vs. Houston on Nov. 25). With today's three points, he now has accounted for 299 points in his career.
- G.J. Kinne ended the game with three touchdown passes and now has 28 on the season. He is the first Tulsa quarterback to throw for 25+ touchdowns in two separate seasons as he had 31 last season.
- G.J. Kinne has 732 career completions, making him just the second player in Tulsa history to complete 700 or more passes. Paul Smith has the most career completions with 808.
- Senior Curnelius Arnick finished the game with 17 total tackles and concluded his career with 356 career tackles. He is fifth on Tulsa's all-time tackles chart.
- Curnelius Arnick's 17 total tackles today ties the Tulsa Bowl Record set by Chris Chamberlain against Bowling Green in the 2008 GMAC Bowl.
- Kevin Fitzpatrick's eight punts were the most punts by Tulsa in a bowl game.
- BYU tied the record for touchdown passes and touchdown receptions by a bowl opponent with three passes by Riley Nelson and three catches by Cody Hoffman. The tying marks were set by Hawaii's Bryant Moniz and Greg Salas, respectively, in the 2010 Sheraton Hawai'i Bowl.

4TH DOWN PASS

December 30, 2011

BYU – 24
Tulsa – 21

An interview with:

**COACH MENDENHALL
CODY HOFFMAN
KYLE VAN NOY
RILEY NELSON
BRANDON OGLETREE**

TIM SIMMONS: We'll get started with BYU. We have Cody Hoffman, the most outstanding player, Kyle Van Noy linebacker, and Coach Mendenhall. We'll have each make an opening statement.

Coach Mendenhall, if you could make an opening statement.

COACH MENDENHALL: I was really pleased with the way our team battled, the grit, the determination, especially the second half. I think they played hungry. We have a strong reputation of when the games are close to find a way to win. That's about over a seven-year period been established.

I think they maintained their poise very well, our team. But before I go any further, we were absolutely treated first class and had a fantastic experience here at the Armed Forces Bowl. I don't think they could have done anything better.

We had a fantastic opponent to play, so the matchup was great, which also builds the intrigue to the game. As it was billed, there were two similar teams with a lot to play for. I have a lot of respect for Coach Blankenship and their team, the way their players handled themselves.

They played hard right to the end. It's fun to have something to play for and have it go right down to the end. Having said that, I still believe the reason we have success at BYU is the people I'm able to surround myself with, that's players and coaches. I consider that basically the secret to consistency. While we still have room to grow and improve, and we look forward to that, the future looks bright.

If you look with Cody and Kyle, these two have grown and matured a lot and have continued to produce on the field new and better ways each time we play. That's a great sign for our future.

I think that Riley battled. Nothing came easy for him today. Tulsa was able to get good pressure on him. They hit him a lot. They played our run game effectively. There were a number of errant throws. Yet when it came down to driving the team to win the game, including the instructions to down a ball, he fake downs it and throws a touchdown, he just wasn't going to be denied helping our team win. That's who he is. I was really impressed.

To our 19 seniors, they've won a lot of football games at BYU. They've really given us a great foundation to move forward from. I expressed my thanks to them.

With that, I'll let Cody give his remarks.

TIM SIMMONS: Cody Hoffman.

CODY HOFFMAN: It was a good time out here. They really treated us with a lot of hospitality.

Our preparation I felt was going right from our meetings to our practice, then the amount of time that coaches gave us to just hang out and do whatever we wanted, just enjoy ourselves.

But when it came to game time, we transitioned into game mode, even though we started out somewhat slow. We went into halftime down a little bit, but that wasn't the first time that's happened to us. We really knew what we needed to do and really capitalized on our mistakes we made in the first half and came out strong in the second half.

We were in that same situation earlier in the year with Utah State, needed a touchdown to win. So we all had great composure and we really had faith in one another and scored and came out on top.

TIM SIMMONS: Kyle Van Noy.

KYLE VAN NOY: I'd just like to thank the bowl for a great experience. The crowd was tremendous. Tulsa, first-class team all the way. Coaches did a great job with their players in prepping them.

It's been an honor to play with teammates like Cody and under a head coach who is probably the most underrated coach in all of college football, as well as a defensive mastermind. He makes the game so much easier for players. He makes it so simple and puts everybody in great positions.

Everyone does their assignments most of the time (laughter). We make plays. It's just been an awesome experience to be at BYU. Wouldn't change it for anything. It was just a great game. Just happy to send the seniors off the right way with the win and happy to be a part of this and part of BYU.

TIM SIMMONS: Let's open up the floor for questions.

Q. Coach, you mentioned that last play. Did you call him to do the fake?

COACH MENDENHALL: No, we called him to spike it. There is a play that we have, Red Alert, that he called on his own, which is fake spike it, then throw a touchdown - or he better throw a touchdown, put it that way (laughter). He did that completely on his own.

I do believe in the freedom of players, and I trust them to do what they think is right to help our team win. As Kyle was talking about defensively, there are chances players can take. I believe that they're prepared well enough to take chances and they better be right when they take them. I don't want them to play scared.

So to have a quarterback in that situation fake spike it on his own, throw a touchdown, be on the same page with the receiver, that's kind of the magic of the guys I get to coach.

Q. You held Tulsa to only 37 yards on 27 attempts. What was your plan for that? How did that happen?

KYLE VAN NOY: Practice (laughter).

COACH MENDENHALL: We have a fairly unique strategy when it comes to playing run defense and how we practice it. We don't think

anyone can score enough points on us nor can they control the game without running the football. If they can't run it, it leads to having to throw the ball up.

Tulsa made a couple plays in throwing it up. But that's hard to maintain consistently. So the emphasis from the beginning was to make sure they couldn't run it.

KYLE VAN NOY: We practice that day in and day out. I can't tell you how much you hear again when they get two yards, a yard, again, they get another yard. So it goes to practice and it shows up in the game.

Got to give props to our D-line who played phenomenal. They don't get much love, but they played a great game on the interior.

Q. Cody, could you have imagined a better way to end your season?

CODY HOFFMAN: I definitely couldn't. I just got to thank the team for willing to compete and giving me the opportunity to be out there and make the plays that I do.

Me and Riley have a lot of chemistry. I think it started with us living together last year. We know what we're going to do. He just makes plays on his own. Once he gets out of the pocket, anybody's fair game. He just found me a couple times, and one linked up for a touchdown.

Q. Kyle, you had a sequence where Tulsa after an interception moved the ball into the red zone, was attacking. They ended up missing. That turned out to be big. What do you remember from that sequence and how were you able to be so successful in that particular time frame?

KYLE VAN NOY: I think it's pretty lucky. He puts me in spots to make plays. Luckily he gives me some freedom like he was talking about earlier.

The other players do their job, and it helps me to be free. It's just fun to be out there and make plays like that. I don't even remember 'cause I was so nerve-wracking for the end of the game.

To help my team out to win, that's all that matters. We're in this together. It's not me personally or Cody, it's the team.

Q. Coach, you talked about the run defense already. The mobility of Tulsa's

quarterback, he gained 24 yards but lost 24 yards, which was zero. What was your game plan for him and was he a priority?

COACH MENDENHALL: He was 'the' priority. We knew he was part of the running game. When you consider a mobile quarterback, they cause many defenses fits because most plans don't account for a mobile quarterback and it leads to leaving your D-line responsible for that, which that's a matchup not in our favor.

The other thing, we broke it down to five of the most relevant games we thought we would use to formulate our plans. He had only been sacked three times in those five games. Kyle was a huge part of this. If we could make him move, make him move into a similar or a more agile athlete, that would then shift to our favor.

We didn't think he could score enough points by running the zone read play. He got a few yards on that. But we thought if we played good run defense, the zone defense was taken away, he'd have to throw it. We thought we could chase him around and sack him.

He was the priority because I believe he's the best player on their team.

Q. Going to your quarterback, he didn't run for a lot of yards today, but he did when it counted. It feels odd to say a BYU quarterback beat somebody running.

COACH MENDENHALL: Riley helps our team win just by competing. The most memorable play to me was the one where he's scrambling, throws it I believe to Cody, and Matt Reynolds without his helmet peels back and hits somebody. That would be the play to summarize the game.

Riley also struggled with some errant throws. But when it comes down to it and he needed to make plays, he helped our team win. That resolve, that determine, is how all these guys train. It's what we ask, it's what we expect, and it's fun to see. A quarterback that can run and get loose on occasion. There was a critical I think fourth down at the end where he scrambled. That was every bit if not more so important than the last play of the game. It's just fun to watch these guys try hard. Both Cody and Kyle do as well as the rest of the team.

Q. You elected to punt, Riley pinned them on the one. Can you talk about why you made that decision?

COACH MENDENHALL: There was enough time left and we were playing good

defense. The way we had been punting the ball the entire game, we had field position and were earning field position the entire time. I had complete confidence we would stop them, which we did. Unfortunately roughed the punter, but then we stopped them again.

Then they chose to punt or had to punt, and the ball wasn't going to get much past the 50. I believed there was going to be enough time left, after we held them, which I believed we would, to give us a chance to score. Rather than risk a field goal, a long field goal, or a fourth-and-eight when time really didn't dictate that, it just seemed to be the right thing to do.

Man, I thought our punter and our punt coverage was on the money. Caused a turnover as well. In a close game, the statistics are fairly close, but that was the difference, in my opinion, was the punting game.

Q. Coach, first year of independence. How important was it for you to get a signature win in this first year on your own?

COACH MENDENHALL: I think it was fantastic and I think it was just one of many more to come. We've won 10 games now as a conference member. Now we've won 10 games as a non-conference member. We'll keep winning games no matter if someone wants us in or wants us out. It's just who our team is.

ESPN certainly recognizes that, and I think a number of people that have had a chance to see us play recognize that. I think this is just the beginning.

But to be able to win the last game of the year, after having done both, but this is five wins in seven bowl games, it's not just going to the games, it's winning the game, and that's the new tradition that we're embracing at BYU and it matters a lot to us.

Q. Coach, how critical was that muffed punt going into halftime? That Red Alert call, is that generally left to the discretion of the quarterback?

COACH MENDENHALL: It's usually not. But some cases it is. The muffed punt, again, there's two ways to look at it, and Tulsa has a good football team. But sometimes mistakes are forced. The coverage was in the returner's face. It was a great punt with excellent hang time. So rather than maybe focusing on Tulsa's mistake, I think it was

us executing at a really high level and doing what we were supposed to do.

But the result of that gave us some momentum because we hadn't generated much offense in the first half. Even though we hadn't generated much, we only went into halftime 14-10 and we knew we could play better, so that put us at least within range.

TIM SIMMONS: Thank you.

We have Brandon Ogletree and Riley Nelson.

Brandon, make an opening statement about the game.

BRANDON OGLETREE: Yeah, I mean, we knew it was going to be a close game. They were a really good team. We respected them a lot after watching them on film.

Coach was telling us all week, the team that was hungrier was going to win. I think they came out hungrier in the first half. But we came out the second half and got the W.

RILEY NELSON: I have to give credit to the special teams that kept us in it. BYU is known for keeping control and taking big leads. Weren't able to do that today. Can't tell you exactly why. Seemed like we couldn't get the ball rolling for some reason. Got to credit them. I was getting hit on my third step into my drop. They were doing a good job with the rush. Wasn't that our O-line was playing bad either, those guys did a good job, had a good game plan.

I will say, happy with the win. Even though we didn't take control of the game and get a lead like we hoped, when you have the ball at the end of the game with a chance to win it, you want to come through and you have to come through. You owe it to your teammates to win it.

Like Tree said, they maybe came out hungrier. We stepped up and played hard. Riley Stephenson, of eight punts, he pinned them inside the 20 seven times. A special shout out to Cody Hoffman. He's a special player, love having him on my team, love being able to throw to him.

TIM SIMMONS: Questions.

Q. Riley, could you take us back to the final drive, the mindset of what you were thinking, what you were telling your teammates.

RILEY NELSON: I wasn't really telling them much other than just kind of clock management stuff. I think we had a little under four minutes when we got the ball back. We had good field position. We were in no hurry. We had

timeouts. We were on our side of the 50, thanks to a great play by J.D.

That's kind of all we were saying. Took a couple shots that weren't there. Credit them to that. But, man, talk about our seniors. Bryan Kariya and especially J.J. We were having a hard time running the ball in the interior. Cody and Marcus. Kind of like Utah State, everybody watches the movie and thinks the quarterback steps in there and gives a big speech. You're just reminding everybody what needs to be done, clock management, ball security, maintain consistency.

Q. Your most successful run came on that series when you went down the middle. Was that just determination?

RILEY NELSON: They were doing a good job. I mentioned earlier I was getting hit a lot. They were doing a good job mixing up pressure as far as bringing the pass-rush from the second level, slanting with their defensive line, bringing linebackers and kind of confusing us up front.

What they did in that last drive, at least to me it seemed, I'll have to watch the film to be sure, it seemed like they were bringing a rush with their front four and dropping everybody else back into pass coverage. We were attacking the middle of the field with Cody from that weak side and they felt threatened by that. I felt like they had to bail out of that.

That's the biggest change I noticed. It seemed like your more traditional format pass-rush, which is easier for our O-line to sort out and easier for myself to find run lanes.

They just didn't want to get beat down the field. I hadn't been successful running the ball up until that point. Make me earn it with my feet. We were fortunate enough to get past the sticks on a couple key downs.

Q. Riley, can you tell us about that last play with that fake spike for the touchdown, what was going through your head there.

RILEY NELSON: Well, when I was little I always used to watch NFL films hours and hours on end. I used to stay up late watching them, make my mama mad. I vividly remember Dan Marino doing that. I don't know if it was a playoff game or whatever it was. I can see him doing that.

His throw was a lot more impressive obviously because he's Dan Marino. His was from a lot farther out. We'd seen that. That was

something we practiced. We had a signal for it. We hadn't practiced it in a couple months, but we had it in our bag of tricks.

Stopped the clock about 12 seconds left on the first down, which is enough time to get two, maybe if we're lucky, three shots of throwing it into the end zone.

But I saw that. As our guys hustled to the ball, their guys kind of stood up. We were yelling clock, everyone was making the sign. I looked at the clock. I thought, I can be quick with this, get it off, give us enough time for two plays. I yelled to our outside guys the call and gave them the signal and we ran it.

The corner, Cody's stance was not a receiver's stance at all. He was standing there waiting for it to get hiked. When Cody took off, the first thing the corner did was sprint back to not get beat on a fade. I had Cody's eyes. He stopped. I was able to put the ball back shoulder. Great play by him. I can't tell you how proud I am of him and the way he played today. This ballgame would have been a lot different story if it weren't for him and his tough play.

Q. Riley, that first half you weren't moving the ball very well. Got big special teams play. Talk about how important it was to get a turnover, put yourself in position to score that touchdown right at the end of the half.

RILEY NELSON: Man, if your special teams are going to give you a gift like that, you have to capitalize. Like I said, if you're not putting drives together, you got to find a way. Myself included. We got a little bit spoiled this year because we were able to mount 70, 80-yard drives time and time again. Tulsa did a good job of limiting that. Reading some pregame comments, that was their plan, to make us put together big, long drives against them while they were going to bring some pressure.

But, yeah, our special teams kept us in it, especially our punt team. I mean, geez, seven punts inside the 20, then they recovered that one before the half to go in and score. That made all the difference in the world.

Q. (No microphone.)

RILEY NELSON: Yeah, without his helmet on. I mean, there you go. There's Matt Reynolds. That boy is going to play in the NFL for a long time. That's why. Not only does he possess the body, physique, he makes plays like that. He freed me to get to the edge. It allowed me to stop on the

sideline and survey the field for a little bit longer. I was able to find Cody. Again, Cody battled to get that ball across the line.

They had been bringing the rush. I had tried to step up in the pocket to try and avoid it, but they were doing a good job inside with their tackles maintaining the rush lane. That was something that I discussed on the sideline with James Lark and Coach Doman, potentially if I don't get the ball out right on time, breaking the pocket, try to make something happen outside the pocket. That's kind of what happened on that last play.

Q. Riley, coach said that he sent a signal to spike the ball, and the rest was all on you. You called your own signal there. He said if you're going to do that you better score. Any thought on your part, I better not botch this?

RILEY NELSON: No, I don't think that way. I probably should, but I don't. It will probably get me in trouble later on down the line (laughter). But, you know, I don't think that way. That's why they pay the coaches the big bucks to make the tough decisions.

But at the end of the day I'm the one with the ball in my hand. If I would have thrown a pick, I would have taken full responsibility. Coach Mendenhall would have shouldered that responsibility and probably never let it out. But, hey, our knucklehead quarterback made a poor decision.

But, man, that's the way I play the game. Coaches coach and players play. I kind of felt it inside. I felt it was a high-reward, low-risk play. If it's not there, I can throw it out of the back of the end zone and we still have some time to make some plays.

It was on me. I look like the hero. But it very easily could have been me and I'd have been the goat. I've been the goat before. That's what happens when you're the quarterback.

Q. Did it cross your mind that your brother's season ended the same way?

RILEY NELSON: He came down. My family, we come in hordes. There's tons of us, aunts, uncles, even down here to Texas. They travel well. I gave out close to something like 30 tickets, most of them family. My little brother comes down and said, I know what you were feeling in the State game. He struggled time and time again. He won on the last play, just like we

did. He said, Now I know exactly how you feel. He's like, The family was, C'mon. Even my own family was getting a little frustrated with me, and rightly so, because I wasn't playing up to the level I know I can play at.

It was special because he was the first one yelling at me from the stands. I went over and talked to him. To end the season that way with him, he was there to experience it for me, I was there to experience it with him, before he leaves for his mission late summer.

I love football because of that aspect. My little brothers participate in it. Not only that, there's the family aspect with my teammates. I feel like those guys stuck by me through very ugly plays, two picks, under 50% completion percentage. The stat sheet is kind of scary to look at.

But your family sticks by you. I felt like my BYU family stuck by me today.

Q. Brandon, they got the majority of their yards on the three scoring drives. They had a whole bunch of three-and-outs. What was going on with the defense there that you were able to stop them?

BRANDON OGLETREE: I mean, it gives you a ton of time to prepare for a bowl game, mentally and physically for the team you are about to play. We felt like we had plenty of time to figure out the run plays they were going to use. Looking at the stat sheet, I mean, 27 rushes, phenomenal job by our front seven because they've been pretty explosive. I think they've gone for over 200 a game usually rushing yards.

So that was a huge part of their offense I think we took away.

You know, on the scoring drives, we felt it was just a few miscommunications, a few guys out of position at key moments. So we never really lost confidence just 'cause we felt like we had a really good idea of what they were doing. We regrouped at halftime. I think we came out and played a lot better in the second half.

Q. Talk a little bit about how this win, with all the guys you have coming back for next year, springboards you into next year.

BRANDON OGLETREE: It's exciting, man. I think what we have on this team is some phenomenal team chemistry. I think guys really love each other and sacrifice for each other. To know that we have so many guys coming back for next season, I'm excited. I don't know if it's possible, but it makes you kind of excited for winter

workouts and spring ball. Man, let's just get going. That's what I feel like.

RILEY NELSON: Moving forward, we have heart and a never-quit attitude. Moving forward I'd much rather have that than sitting here at the end of the season saying, Man, all the talent in the world, but just couldn't quite come together in those close games.

We come together in those close games. The more experience we gain, the more rest we get, the more practice we get, I'm very encouraged and very excited heading into our winter workouts. The most successful teams in college football are senior-laden. If you look at us, we're going to be juniors and seniors. A lot of guys that have experience and have been around the block. That's exciting. We have that chemistry. We love the battle and the fight, not just on the field, but off the field. The fight, winter conditioning, Coach Mendenhall's workouts are tough. Working out when you don't want to work out, staying that extra 20 minutes for film. We have that foundation to build on.

Our talent and skill level will keep increasing as we keep practicing. So moving forward, I'm very excited. I know our team is very excited. But sending our seniors off the right way, those guys accomplished something very unique in college football, three out of four bowl wins, three out of four 10-win seasons. Tomorrow when we wake up, back to the grind, reach our potential and be the team we can be next year.

TIM SIMMONS: Thank you very much.

December 30, 2011

BYU – 24
Tulsa – 21

An interview with:

**COACH BLANKENSHIP
G.J. KINNE
DEXTER McCOIL**

TIM SIMMONS: Coach Blankenship will make an opening statement and we'll ask each player to make a statement. We have G.J. Kinne, and Dexter McCoil, the most outstanding player.

Coach Blankenship, go ahead and make an opening statement.

COACH BLANKENSHIP: I think Coach Mendenhall and I talked all week back at the press conference about how balanced we thought these two teams were, how similar, what kind of battle we thought it would be. We certainly fell on the wrong side of it at the end.

I could not be prouder of the men I get to lead. So thankful I had this year with these seniors, the way they have battled every single game, I couldn't be more thankful or more proud.

We just came up a little short today.

TIM SIMMONS: Dexter?

DEXTER McCOIL: I mean, it was a great game. We came to win the game. It didn't fall our way. All we could do is look at this game, get better from it, learn from it, go in the off-season hungry and just build from it, get better from it, grow as a team.

TIM SIMMONS: G.J.

G.J. KINNE: I'd like to start off by thanking the Armed Forces Bowl. Had a great time. A great bowl game to end as a senior.

Wish the game would have turned out a little better for us. We have a great group of guys,

a great group of coaches, but we just fell a little short today.

Give credit to Coach Mendenhall and the BYU Cougars. They came to play as well. They're a great team. It's been a great experience, great three years for me here. Best of luck to the Tulsa team next year.

TIM SIMMONS: We'll open up the floor to questions.

Q. G.J., this being your last game, what are your emotions right now?

G.J. KINNE: I'm just kind of shocked right now. Doesn't feel real. I'm sure it will hit me later.

Right now I'm trying to cherish these last minutes with the guys, go back in the locker room. Probably be the last time I see them for a while.

Q. Coach, can you talk about that final drive by BYU.

COACH BLANKENSHIP: Well, it was a situation where they had one timeout. We had an opportunity a couple of times to stop. I know Riley Nelson made a heck of a run on either third or fourth down when we had him wrapped down, he broke a tackle, got down. We continued to battle.

It was kind of frenetic at the end, the tempo. They had run out of timeouts, so we didn't want to stop the clock to try to give everybody a chance to regroup.

I just think they executed really well in a tough situation at the end. Really good teams do that. There's a reason they'd won nine games to this point.

I thought defensively we played really well the whole game. I'm not frustrated at all with our defense. I'd love to have those last two right before the half and the end of the game, but I thought we played very, very well defensively.

Q. Coach, to continue on the defensive theme. Even though BYU had the time of possession, your defense continued to come up with big play after big play. Did you get the

feeling once the offense got that final touchdown, that would be it?

COACH BLANKENSHIP: I thought so. I really felt like the way our defense was playing, we actually dropped a couple of interceptions, had some other opportunities. I felt like we had a pretty good bead on them.

I thought Coach Guy and his staff did a great job of preparing our defense, giving us an opportunity to react well.

I thought we sputtered around a little bit defensively, no doubt about that. There is a reason. BYU is ranked as high as they are defensively, do a great job. They had a couple wrinkles they threw at us, took us a while to get going. Had some big plays. Thought G.J., a couple great passes to Bernie might have been enough.

But that's why you play. It comes down to the last drive so many times. Again, hats off to BYU.

Q. (No microphone.)

COACH BLANKENSHIP: He had a fade stop in the end zone.

Q. Dexter and Coach, could you talk about how much you were concerned about Nelson's mobility?

DEXTER McCOIL: We watched film. We prepared for him. We knew he was a good player.

But we never try to focus on the opposite team. We always try to focus on what we can do to get better, what we can do as a defense to win the game.

We was prepared. Obviously didn't go our way. But we was prepared and ready for everything.

COACH BLANKENSHIP: I felt like we really kind of controlled him. He's really very good running the football. I thought we controlled him for the most part. We have a guy sitting here that has done that over and over again. Great players make those kind of plays.

He ran out of some trouble on that last drive to keep his drive alive. Again, I think you give him credit for that.

Q. Did fatigue ever become a problem for the defense? They were on the field almost 11 more minutes than you guys.

COACH BLANKENSHIP: The time might have felt that way. But the number of snaps was

not in excess. There was a time where it looked like we might be a little tired. 50 something snaps.

I think certainly it makes a difference if our offense doesn't get the defense off the field a little longer by controlling some drives. But I think we were doing all right. That last drive, the frenetic pace of it, I think there was fatigue on both sides. But that's what happens in this game.

Q. G.J., didn't end the career the way you wanted to. Can you still look back and find positives in the way this season went?

G.J. KINNE: Yeah, I think so. We had a lot of adversity early in the season, losing some guys, losing some big games. For us to rattle off some big wins, get to a bowl I think was a great accomplishment for us this year.

There's definitely positives. It was tough to end this way, but I think we had a great year.

Q. Coach, fourth-and-one late outside your 10, did you think about going for it?

COACH BLANKENSHIP: Not with the way our defense was playing. I mean, there was a little instinct in me to want to do that, but I had a little more sense, especially the way our defense was playing.

Q. Talk about the inability at times for the offense to get into a flow and missing Carter today.

G.J. KINNE: Yeah, for sure. We couldn't get in a rhythm. We were at the beginning, then we just kind of got off, were dead for a couple quarters. Bryan Burnham made a couple plays. Anytime you don't have your best play-maker, that hurts you. Can't use that as an excuse. We had guys that played his position. Just didn't go our way.

Q. Talk about the guys that stepped up today.

G.J. KINNE: Nathan Largen, Michael Britton, two guys that came up and played in his position. Trey Watts was very selfless, decided he was going to be able to play a couple snaps at three-back to help us out. He's a four man, so he didn't know the position that well.

Just one of those things when one of your best players goes down, it's hard to replace them.

Q. You take a lot of pride in being able

to run the football. It was tough today. Can you dissect what made it so difficult to generate a run game against BYU.

COACH BLANKENSHIP: The biggest thing I think is we couldn't win on first down enough. The way you run the football, the way we've had success running the football was to get into that tempo and get into that rhythm, then hurry up and keep the ball.

We did that a couple of plays I think in the second quarter where we got some first downs, running some zone reads stuff, made some gains.

The biggest thing is you kind of get into that mode of, We have to try to move the ball another way. We thought we could get on the perimeter with them. They did a good job of defending it, adjusted some things well.

Again, we did not go into it thinking we'd run a lot interior. They're just really big inside. But we thought we could get more outside. We weren't able to finish that off.

Q. Dexter, most of the talk leading up to the game was on BYU's defense, how strong it was. Did that give your defense more motivation going into the game?

DEXTER McCOIL: Yeah, I mean, give us a lot of motivation 'cause Tulsa's offense is good and BYU's defense is good. We had something to prove. We came out, didn't go our way. But we fought hard. I'm proud to say I played defense today with the other guys that we had.

Q. There was a couple times in this game where momentum shifted hard against you. Talk about that.

COACH BLANKENSHIP: That's just the way football works. You have opportunities that come your way. How do you react from them? We did a pretty good job of taking care of the football all day. But we do muff a punt. Actually I think he fielded it, then as he started to run probably got stripped. I think it was ruled a muff. Nevertheless, good teams take advantage of those things.

We had some opportunities. Dex gets a great interception. We got down in the red zone but we didn't finish up our drives, missed that field goal. Ultimately, those are the kind of things that separate two teams when they're very close.

Q. Coach, on the end of that first half, obviously the last play of the game will overshadow that, but how did you feel your

team reacted after the mishaps at the end of the half? Did you feel confident coming back out that your team would be able to survive that 30 seconds?

COACH BLANKENSHIP: I was more concerned going up the tunnel than I was coming out of the tunnel. Going up the tunnel, our guys were acting like we were behind. I felt like they really rallied, got in there and talked to each other. The coaches did a good job.

The adjustments were minimal. It's important to understand they had not driven the ball at that point. They made some plays there. We just had to go back and dig deeper. Defensively I thought we did a great job of that.

Offensively a lot of the things we did the first half, we just didn't execute as well. Had a few drops, had a few misses. Then I thought we played much better the second half. But things were a little tighter. We didn't have as many options to go to in the running game.

Q. Coach, I want to ask about adjustments you were able to make in the second half. BYU seemed to be coming at the very end of quarters and scoring. What sort of adjustments did you have to make defensively and on offense?

COACH BLANKENSHIP: Defensively we didn't have to make much. I thought we played really reasonably good defense the whole game. We had a post route get over the top. I thought BYU took a great shot on a freshman corner when he came in the game, beat us on a post. Other than that, I really thought we played pretty well defensively.

You never like to give up the big plays at the end. But we were close in being able to get them off the field.

Again, I think it goes back to one team played and made those game-winning plays at the end and you have to give them credit for that.

Q. On the last play, Dexter and Coach, did you feel that your defense took that split second, What is he doing with the football?

DEXTER McCOIL: Yeah, they caught us by surprise. They caught everybody by surprise. We didn't get to make the play we wanted. I think we were pretty prepared for it.

COACH BLANKENSHIP: Well, the play actually happened in the far corner. I didn't see

anybody stop and freeze. What it looked like is we kept sinking to the back corner like it was a fade route after the faked spike. Again, from the sideline looking off to the far corner, sometimes everybody has a better view than we have.

Q. Coach, what did you tell the team in the locker room after this?

COACH BLANKENSHIP: I told them I loved them. I thanked them. This has been an incredible run. These guys endured a lot of adversity. We talked about that. That's a very cheap word sometimes.

If you're going into your senior year, you have a coaching change, that's really hard in the best of circumstances. That's really hard. We bring in a bunch of I think really good coaches, but still that's a really tough deal to go into going into your senior year. Add to that we lose some of our players, have a tough schedule. You can go through the list. The adversity is real.

Yet the thing I told them is how proud I am. They never, never flinched. These guys never, never looked for a way out. They just kept finding a way to fight back, and we did it all year. I'm very, very proud of them.

Q. Dexter, I know it's early to think about next year, but what can you gain from this year?

DEXTER McCOIL: I can gain a lot. We go back, watch the film. Everybody is not perfect. I'm not perfect. I made mistakes today. We all made mistakes. You have to learn from mistakes and try not to make the same mistakes next year.

All you can do is keep a positive head, work harder. We lost today, so that means we have to work harder to win the next bowl game next year.

That's all you can do is get better each and every day.

Tulsa Post-Game Player Quotes

WR Bryan Burnham:

On having a big day:

"I just went off in this one. There were a lot of different plays where I was given the chance to touch the ball at any given time. They put the ball up there for me, and I just tried to make some plays."

On the absence of Willie Carter:

"It was definitely a huge deal that Willie was out. Willie is a big playmaker for us. That hurt us a little bit today, but people stepped up for us."

On what happened in the 2nd half:

"We kind of got away from our hurry-up style of offense. We were kind of lagging around a little bit, but there was times where you could see how explosive we could be."
